

HOW TO SUBMIT JOBS TO EUROENGINEERJOBS

www.euroengineerjobs.com/recruit

Table of content:

Jobs within scope?

Post the job on your website, or on EuroEngineerJobs?

Urgent recruitment needs or wish to promote your organisation?

www.euroengineerjobs.com/post_job

Normally organisations post their job vacancies on their own web pages, and then they need other channels as well for more publicity. E.g. print medias or the internet. EuroEngineerJobs provides a great channel to reach online jobseekers.

There are three considerations for the recruiter before submitting a job to EuroEngineerJobs:

- Does the job fall within the EuroEngineerJobs scope?
- Is the job description posted on your website, or should it be posted directly on our website?
- Should the job be highlighted in our listings to attract more attention?

1. JOBS WITHIN SCOPE?

Qualifying jobs can be listed for free on EuroEngineerJobs. See our post job page for more information. If a job posting does not fall within our basic job scope and our free posting model, we can still publish it on EuroEngineerJobs.

We can list jobs that aren't in this scope for a modest charge. Please note we always charge for jobs submitted by recruitment agencies.

2. POST THE JOB ON YOUR WEBSITE, OR ON EUROENGINEERJOBS?

We only list for free if the job ad is displayed on your website.

If the job is not already on your website, talk to your website administrator and HR department about whether you can list the job on your web site. If you can't create a web page quickly, we can do it for you - just send us the job details here.

If we create a premium web page for you, we will put your logo at the top of the page, and we will layout the page with all the information you supply. With a EuroEngineerJobs custom web page:

- Your logo will be prominently displayed.
- The job ad will be linked to from our latest news and category pages on the web site, and in our newsletter.
- The ad will displayed for four weeks.

Ask our sales team to advise you what is best for your recruitment situation.

3. URGENT RECRUITMENT NEEDS OR WISH TO PROMOTE YOUR ORGANISATION?

To get more visibility and responses to your job ad, EuroEngineerJobs can highlight or promote the ad in our listings.

You can have your job ad highlighted with a logo and description to make it command attention in the job listings over the whole recruitment period.

You can also have your logo displayed next to the job description, which will draw attention from our large audience to your job and your organisation during the whole recruitment period.

For the recruiter who urgently needs intense promotion of one or several jobs, we can also display the job ad at the very top of the front page's job list - and they stay on top during the whole week! The recruiter can even advertise multiple jobs in such a single announcement, if needed. Email us for details.

If you wish to promote several jobs, or recruit for several skills, we can also offer a more detailed recruitment advertisement at the very top of the home page job listings.

- Multilingual with English as the most common language

What our Clients Say

"Advertising on EuroEngineerJobs allows us to target a key audience that is in demand by many of our clients. We've run extensive campaigns including Job Ads, Website Banners and Newsletter Adverts to great effect. We're always very happy with the service and the site provides good return on investment too!"

- Tim Suggitt, International Sales Director, Aktor Interactive

"I often advise multinationals within High Tech, Chemical and Manufacturing industries to use EuroEngineerJobs to source highly qualified engineers. During the past 6 months I've successfully used EuroEngineerJobs for positions such as Process Safety Engineer, Support Engineer, Chemical Engineer and Lean Engineer. Despite complex job profiles and the scarcity of the target audience we were able to generate good resumes."

- Senior Consultant, VONQ - Online media company
